Technical Data Sheet

Benzalkonium chloride

CAS No.: 85409-22-9

Items	Standard
Appearance	White Powder
Available Content [%]	≥98.5
pH value (1% in water)	5 to 7.5
Free ammonia [%]	≤0.5
Amine Hydrochloride [%]	≤0.5
Carbon Chain (C14) [%]	≥95
Solubility (water at 20°C) [g/L]	Approx. 250
Odour	Weak odour

Benzalkonium chloride belongs to quaternary ammonium salts with cationic surface activity.

In use, benzalkonium chloride should avoid compounding with anionic surfactants, iodides and peroxides.
