Technical Data Sheet

Tetrasodium Iminodisuccinate

CAS No.: 144538-83-0

Synonyms:

Iminodisuccinic acid sodium salt;

Tetrasodium iminodisuccinate is biodegradable non-phosphorus chelating agents, used as softener, scale inhibitor, complexing agent, sequestering agent, etc.

Applications:

Chelating Agent, Sequestrant, Detergents, Water treatment, Textiles auxiliaries, Paper industry, Metal surface treatment, etc.

Technical Data:

	IDS-Na solution	IDS-Na solid
Appearance	colorless to light yellow	white powder
Solid content [% w/w]	≥42	≥92
Active content [% w/w]	≥33	≥76
Odor	very low	no odor
pH value 10% solution	>7	>7
Density at 20°C [g/ ml]	≥1.2	---
Bulk density [kg/Liter]	---	≥0.3

Specifications are subject to change without prior notice.
